Application Highlights

- Users have the ability to search for parcels by parcel number, deed name, current owner name, or property address.
- Viewer includes zoning information for Chatham County, Town of Cary, Town of Pittsboro, and Town of Siler City.
- Zoning description documents are hyperlinked in the pop-ups for each zoning layer.
- Users can view Chatham County parcels with conditional use permits.
- Application includes external links to the Tax & Land Records Viewer, the Flood Hazard Viewer, and the Chatham County Open Data Portal.
- The Cary-Chatham Joint Land Use Plan data is included in this viewer.
- Print functionality is included with the ability to turn on and off desired layers in the table of contents to produce desired map content.
- Additional datasets with this viewer include subdivisions, extra-territorial tax jurisdictions, and address points
- Attribute table allows users to filter data by map extent and export datasets as .csv files for use in other business systems.
